

BBF Formula # 2 For Grass Hay (50%) Alfalfa Hay (50%)

FEEDING DIRECTIONS BBF FEEDS: Use BBF Vitamin & trace mineral top-dress with this feed. Do not feed alone.

Feed at least two to three times daily, the more feedings the better.

Feed at as regular times as possible.

Make feeding changes gradually over a period of 7 to 10 days or more.

Feed rate changes should be 1 pound or less per day.

Have fresh clean water and iodized salt available at all times.

Feed according to the weight of your horse and their level of work.

On the back of this tag are starting points for feeding levels. ***These starting points are only a guide, all horses are individuals and should be feed as such.***

Feed rates up or down from the guide according to weight & condition wanted.

Do not feed free choice.

Always feed quality hay.

Only feed additional vitamins or minerals & protein on the advice of a nutritionist or vet.

Hay & pasture quality affect daily feed allowances.

Seasons and horse condition also affect daily feed allowances.

For horses receiving grass hay(50%)Alfalfa hay(50%). ME-level(energy in hay) assumed to be 1. per pound. And free of mold.

BBF Formula # 2 is for Idle stalled horses - Light worked horses-
